# Centre For Continuing Nursing Excellence (CCNE)

## What is CCNE?

Centre for Continuing Nursing Excellence (CCNE) is a body that provides innovative products based on the integration of academics, life skills and exposure to the Nursing Science. It is a leading scientific research network for nurses, faculties, researchers and students that would help nursing stakeholders to perform self-directed learning and continually aspire to improve individual professional skills. The ambition of CCNE is to spread advanced nursing professionals with knowledge and skills in managing certain health care issues and developing clinical practices. It is a forum which connects all to explore issues of mutual concern as well as exchange knowledge of different fields of nursing science and research, share evidence and ideas, and generate solutions.

## CCNE Membership

CCNE membership provides a unique opportunity for an individual, organization and its professionals. Motive of CCNE membership is to address current challenges, build strategies for the future and distribute best products with the overall objective for strong connection between hospitals, institutions and nursing associations. All the students, researchers, faculty members, organizations, colleges can share their innovation ideas along with issue and needs on the single platform.

## Vision & Mission

Our mission is to promote excellence in nursing through leadership, research, collaboration, education, training and advocacy. Our mission is to promote excellence in nursing through leadership, research, collaboration, education, training and advocacy.
